Built Around Your Business

Customization, cloud, integration & workflow automation

Complete Tally Setup & Implementation

“From Tally sales and licensing to installation, implementation, upgrades and renewals, we ensure a smooth and hassle-free setup. Our team helps businesses get started with the right Tally solution and configure it according to their operational needs.”

Connected & Customized Business Solutions

“We provide Tally customization, data synchronization, integration and Tally on Cloud solutions to create a more connected and flexible business environment. We also help automate repetitive workflows, improve efficiency and tailor Tally to your unique business processes.”

Reliable Support & Business Assistance

“With AMC, technical support, training and user assistance, we stay with you beyond implementation. Our experts help your team use Tally effectively, resolve technical challenges quickly and maintain smooth day-to-day business operations.”

YOUR BUSINESS

Our Expertise

From everyday Tally requirements to advanced business solutions, we bring together technology, expertise and dedicated support under one roof. Our goal is to simplify your operations, improve efficiency and help your business move forward with confidence.

OUR SOLUTIONS

TallyPrime

Powerful and intuitive business management for accounting, inventory, banking, taxation, payroll and insightful reporting.

TallyPrime Server

Built for growing businesses that require enhanced performance, secure data access and seamless multi-user operations.

Tally on Cloud

Access your business data securely from anywhere, anytime and keep your teams connected across locations.

Tally Customization

Tailored solutions designed around your unique workflows, reports, invoices, vouchers, and business processes.

“At Saanvika Info Solutions, we provide a complete range of Tally solutions designed to simplify and strengthen your business operations.”

“From managing accounting, inventory, banking, taxation, payroll and reporting with TallyPrime to ensuring faster and smoother multi-user operations through TallyPrime Server, we help businesses work more efficiently.”

“With Tally on Cloud, you can securely access your business data from anywhere and keep your teams connected across locations.”

“Through Tally Customization, we tailor workflows, reports, invoices and processes to match your unique business requirements.”
